

DOE/EIA-0218(83/26)

Dist. Category UC-98

Weekly Coal Production

Energy Information Administration
Washington, D.C.

**See Notice
Inside Cover**

Production for Week Ended:
June 25, 1983

Released for Printing:
July 1, 1983

Highlights

Production of bituminous coal and lignite in the week ended June 25, 1983, as estimated by the Energy Information Administration, was 15,012,000 short tons. This was 3,000 short tons more than production in the previous week. Production in the corresponding week of 1982 was 16,946,000 short tons. Bituminous coal and lignite production from January 1 through June 25, 1983 totaled 362,959,000 short tons, 15.1 percent below production in the same period of 1982.

Production of Pennsylvania anthracite in the week ended June 25, 1983, as estimated by the Energy Information Administration, was 120,000 short tons, an increase of 38,000 short tons or 46.3 percent from production in the previous week. Production in the corresponding week of 1982 was 125,000 short tons. Anthracite production from January 1 through June 25, 1983 totaled 2,063,000 short tons, 17.8 percent below production in the same period of 1982.

IMPORTANT NOTICE

As required by Government regulation, EIA is conducting its annual publications mailing list review. If you are on the EIA mailing list, we will soon be sending you an important postcard. You will have to return it to us to stay on the EIA mailing list. If you have not received the postcard by JULY 20, 1983, please contact the National Energy Information Center at 202-252-8800.

NOTE: This notice does not apply to subscriptions which have been purchased from the Government Printing Office (GPO).

Energy Information Administration Weekly Coal Production

Weekly Coal Production provides timely information on coal: current statistics on the production of anthracite, bituminous coal, and lignite are provided each week; monthly, quarterly, and annual statistics on coal consumption, production, stocks, imports, and exports, and related supply and demand data are provided as they become available.

Weekly Coal Production is intended for use by the coal industry, the press, State and Federal Governments, policy makers, consumers, and analysts. Weekly coal production estimates are based on current trends in weekly rail carloadings of coal and current coal production trends as reported in *Coal Distribution* (Form EIA-6), monthly and quarterly coal production reports from State mine agencies, and *Coal Production Annual* (Form EIA-7a).

This report was prepared by the Energy Information Administration, the independent statistical and analytical agency within the Department of Energy. The information contained herein should not be construed as advocating or necessarily reflecting any policy position of the Department of Energy or any other organization.
